COLINE

We spent almost a week in England. We travelled South : we went to Bath, Wells, Bristol and Cardiff. The weather wasn't as bad as we expected : we saw the sun twice or thrice! We left Colombes around midnight on Monday, April 28th. We travelled the Channel by ferry. As it was dark ,we only saw the lights of England and France , and the black night all around us. It was very beautiful. We arrived in Dover two hours later and we saw white cliffs. On Tuesday we went to Bath, which is a Roman city, previously called Aquae Sullis. We were very tired after a night in the bus , so we were all like zombies when we listened to the man who did the guided tour! It was interesting though. He showed us the Royal Crescent, Nelson's house... Then we visited the Roman Baths, the water was hot !!! On Wednesday web went to Wells to visit the cathedral, we were a bit late because of the traffic so we could not visit the whole town. Then we played in Bath- we had puzzles, photos to find [...]Then we had some free time in Bristol. On Thursday we went first to StFagan and visited the Welsh Folk Museum then we went to Cardiff. On Friday we visited London, end of the trip !
