YearBook 2016

THE HEADMASTER'S MESSAGE

Après trois années passées au lycée Maupassant en section européenne, vous avez pu appréhender, davantage encore que vos camarades, la richesse du monde anglo-saxon et l'impérieuse nécessité de maîtriser la langue de Shakespeare.

Vous avez montré à vos professeurs des qualités qui, je n'en doute pas, vous seront très utiles pour votre cursus dans l'enseignement supérieur qui va débiter dans quelques semaines.

Vous laisserez à vos enseignants et au proviseur que je suis un excellent souvenir. Ce yearbook témoignera de votre passage au lycée Maupassant qui sera toujours content d'avoir de vos nouvelles.

Bravo pour le travail accompli et bon vent !
M. ABECASSIS

FROM MRS IRDOR TO HER DEAR STUDENTS

Wish you all the best.

Hope your English will enable you to meet and speak to people from all over the world.

I enjoyed teaching you!

The best of luck

This picture was taken during the school trip to London and Cambridge in April 2015, which definitely stands as the climax of a delightful year spent with you. Like our stay there, the schoolyear was interesting, friendly, rewarding, successful.

I wish you all the best for the future.

A special dedication goes to my «Charlie's Angels» with whom I have spent more lessons and an extra year thanks to the literature class.

Ms Piette

DEAR STUDENTS,

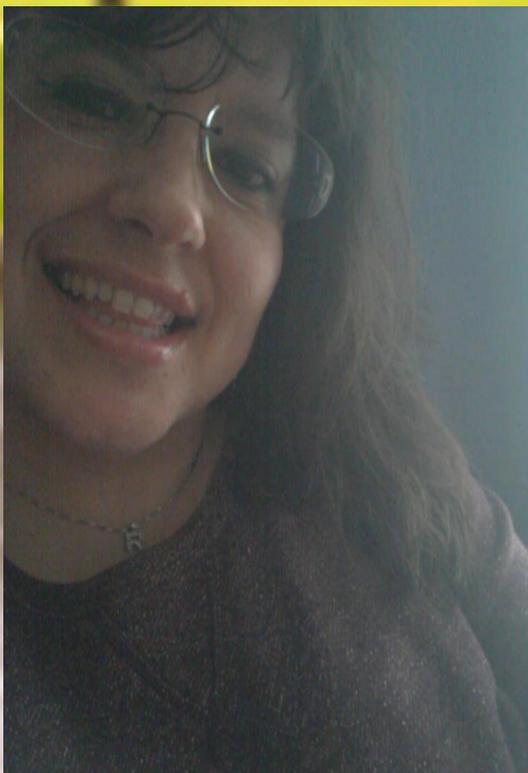

You will remain my last memory of the Euro section in Maupassant, and I've been really happy to be your teacher this year. I hope you will all remember how much fun we had sometimes!

Don't forget your English!

I wish you all the best, and everything you deserve.

Best regards

Ms Rochias

TO TALK ABOUT YOUR HISTORY...

Looking back over your shoulders, while opening this yearbook, I hope you will smile thinking of the memories related to the European Section. Now, you are going to write a new chapter of your history. I have been very happy to be part of the previous one for two years, and I enjoyed sharing good moments with you.

Be proud of Your History! I wish you the best in your life!

Ms Le Roux, History and Geography teacher

What a great year it was, even in the last hours of Tuesdays.

History, Geography can be so FUN

To my people in Terminales EURO YA DON'T STOP!

Mr Pichard

COLINE

MY EXPERIENCE IN THE EUROPEAN SECTION

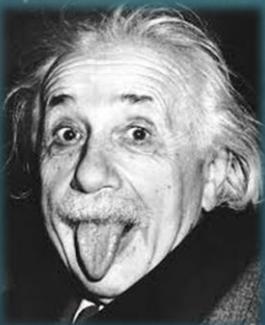

I entered the European section five years ago and I have never regretted it, it was a fantastic experience! It allowed me to improve my English a lot, but also to be more confident while speaking a foreign language. According to me, you can't look like a native if you don't know the culture of the country, even if you speak perfectly. So, the European section helped me to look perfectly British! It was very interesting to study history from another point of view. Also, learning through projects was really exciting: we made videos, newspapers, theatre plays, interviews, debates, ads... Strangely, I learnt how to do a video in English class! Of course, the best of the projects was the trip to London last year: I was with fantastic people, we visited incredible places such as the University of Cambridge or the Globe theatre of Shakespeare, I took a lot of pretty pictures. Such a wonderful time!

WHERE I WOULD LIKE TO GO

I hope one day I can go to Canada! Canadians seem to be open-minded and friendly people. Nature is incredibly beautiful there, with gigantic cascades and magnificent forests. Have you seen all that snow in winter? It is also a place where who can see the incredible aurorae borealis!

A QUOTATION THAT SYMBOLIZES ME

"Life is like riding a bicycle. In order to keep your balance, you must keep moving." Albert Einstein

No matter the rocks on your road, no matter the rain nor the dark, just go, just live your life. This quote is very important for me because when I was younger I used to focus more on the problems than on the solutions. Obviously, I couldn't keep my balance and I fell a lot. When I finally managed to gain confidence and hope in the future, I got on my imaginary bicycle and since I try not to stop. Sometimes it is hard, but I have a goal, I have a dream and I will fulfil it.

PRESENTATION OF A CLASSMATE

I met Clarisse soon three years ago, I have always been in her class since. She is very shy and quiet, she doesn't speak a lot, but she is serious and you can count on her. We have done a lot of the experiences in sciences together, and I bet we both remember very well the dissection of the mouse!

MY PLANS FOR THE FUTURE

Next year I want to go to a preparatory class in order to join an engineer school like Supaéro in Toulouse. I want to be part of the team that will invent the next space probe, in order to explore our solar system and take pictures of the planets and their moons. Moreover, I want to find a circus school because I can't live without trapeze, it has become vital for me. Finally, I want to experience as many things as I can; maybe not drugs but paragliding, diving, piloting and mainly weightlessness!

DYLAN

MY EXPERIENCE IN THE EUROPEAN SECTION

I entered the European Section five years ago in middle school. I was about to decide not to integrate it, but I'm so glad I did! These five years have helped me so much, with a good class who really wanted to improve their English and so did I. I have learnt so many things thanks to the teachers, the classmates, the trips we did in England. There was always a good atmosphere in the class and we motivated each other to improve our English the best we could. I'll miss all my classmates and I think that all the things I've learnt in the European section will help me in my future.

WHERE I WOULD LIKE TO GO

I would like to go to either South Korea or Japan. I've always loved and been fascinated by the Asian culture and especially these two countries. Indeed, their cultures are very different from ours and I think it is really interesting. It will be like a dream to go to one of these countries. Also, I really love their food and mangas. The only problem if I go there will be the language, but I'll figure it out. Finally, I really want to either study or work there.

PRESENTATION OF A CLASSMATE

Briac and I met during middle school and ever since we have been good friends. He is a really funny guy who is always making jokes and funny faces. Even if he was not the best in English, especially because of his accent, he really tried to improve and he did. He learnt a lot thanks to this class. Briac is still a good friend after all these years and I'm glad that he was with me in the European Section.

A QUOTATION THAT SYMBOLIZES ME

“Life's not about how hard of a hit you can give... it's about how many you can take, and still keep moving forward.” Sylvester Stallone, Rocky Balboa

In life there are always ups and downs and it's in the hardest moments that you have to be strong enough. You need to stand up and fight because you only have one life and you mustn't waste it.

AN EVENT THAT HAPPENED DURING MY YEARS IN THE SECTION

The event that stands out during these 3 years in the European sections is the second trip to England during the second year of high school. It was particular because it was a class trip, contrary to the first one. This trip allowed the whole class to know each other even better and it brought us a lot of really good moments. This is probably my best moments in these 3 years of high school.

MY PLANS FOR THE FUTURE

I would like to become a computer engineer. I have always loved all new technologies that have been created over the last few years and I am looking forward to all of the new ones which will be created and maybe I'll be one of those who will create them.

THREE PICTURES TO REPRESENT ME

STEVEN

MY EXPERIENCE IN THE EUROPEAN SECTION

To me, English is the most important and the most spoken language in the world so the choice to live the experience of the European section was not difficult at all. It also allowed me to improve my English and learn more about British culture. Without the European section I wouldn't have met all my schoolmates, my friends.

WHERE I WOULD LIKE TO GO

All the states attract me because I would really like to discover the American culture: songs, traditional dishes of the country, etc. New York, Washington, Los Angeles are beautiful cities and I've never been there. Monuments like the Statue of Liberty, the Golden Gate Bridge, the Empire State Building must be very impressive.

PRESENTATION OF A CLASSMATE

Dylan is a good friend and we got to know each other thanks to the European section. At the beginning we didn't know each other a lot and I saw through time that he is very funny and I appreciate the people who share with us their good mood. I hope that we'll keep in touch in the future.

WHERE DID I GO?

I am a big traveler. I have already visited many countries like Spain, Italy, Germany, Greece and Great-Britain (my favorite). I had the chance to discover many different cultures. It was a fantastic experience.

MY PLANS FOR THE FUTURE

After school, I would like to do STAPS which are studies of sport in general, anatomy, mechanism of the human body. I want to teach sport and to take care of children in middle school or high school.

THREE PICTURES TO REPRESENT ME

ANAIS

MY EXPERIENCE IN THE EUROPEAN SECTION

The 3 years I have spent in the European Section were very beneficial for me. As we had an extra hour of History class, I got to learn a lot about History of both the United-States & Great Britain. But what's even better is that I had the chance to meet awesome people and to make great friends! Moreover, the trip that we made in the 2nd year was really nice and we all got close to each other. I will never forget those 3 years.

WHERE I WOULD LIKE TO GO

I would to love visit Australia. This is a gorgeous country that is not that known actually. I feel like it is a "mini-America" without all the fancy stuff. A country with beautiful landscapes and so many cultures. I feel the same about New-Zealand! There are are so many things to see down there.

PRESENTATION OF A CLASSMATE

The classmate I am going to present is Lorène. She is a lovely human being and a very caring friend always up to help whoever is in need! She likes listening to pop/rock music, watching series & travelling. I mean she would like to travel the world one day... What makes her happy is making people happy.

A QUOTATION THAT SYMBOLIZES ME

"If you can't fly, then run
If you can't run, then walk
If you can't walk, then crawl
But whatever you do,
Keep moving forward"
Martin Luther King JR

WHERE DID I GO?

I love travelling even though I don't travel that much... But I've been to Canada once, in Toronto and I fell in love with the city. People there are so nice and warm in spite of the weather!!! Actually it was summer when I was there so it was very hot. But Toronto is so beautiful, there are high buildings and so many parks around the lac Ontario.

THREE PICTURES TO REPRESENT ME

GHIZLAINE

MY EXPERIENCE IN THE EUROPEAN SECTION

I heard about the European section when I was in middle school, we didn't have this kind of option in my school, so I was really attracted by this new experience. I have always loved learning English and the idea of improving my skills was very interesting for me.

The first year was definitely the best! There were much more people, there was a good atmosphere between us, and what's more, we had the chance to participate in a school trip, which has brought us together. Nevertheless I was annoyed by the Euro History class, but we had a good teacher, that was the good part of it.

Then things have complicated because it was way too hard to keep the level, and that's why a bunch of people left the European Section. In addition to this, class schedules ended very late. But we had a specific school trip for us to England and those school trips are definitely one of my best memories.

So even if it is tough sometimes, I admit that I do not regret at all. It was such an interesting and unique experience to live in High School.

WHERE I WOULD LIKE TO GO

I definitely dream to go to Australia, Mauritius Island and The Maldives. I have had the chance to go to 2 places that I had been dreaming about: America and London but I still want to go back there.

MY PLANS FOR THE FUTURE

Actually I do not plan anything based on studies for my future. I plan to go to London and to have a kind of Gap Year to learn much more about me and to understand who I am before planning my life. Beside I plan to realize my dream in London too, I put so much hope on in. Maybe I will succeed and become a famous singer! But actually my only plan for the future is to be happy.

PRESENTATION OF A CLASSMATE

I've decided to present my classmate Anaïs
We've been in the same class for 3 years now
and I'm going to say what I've noticed. What is
incredible about her, is that even though years go
by, she seems to always be the same person. She
didn't change but she grew up.

She's always funny (even when she doesn't
want to) she's not really a "smiling" girl but when
she does, you know it's real. Indeed she's never
going to force it, if she doesn't feel it she's not
going to be nice or pleasant to you just because
this is "the way" to behave. This side is a quality
but also a default, because sometimes she can
seem cold or too direct.

However she has plenty of qualities, such as being naturally funny. If you're sad
just the way she breathes will make you laugh, she's talented even though she
doesn't see it, she CAN dance, she's such an inspiring person and she always pushes
you to achieve your goals, she is very supportive and helps you improve yourself.
She's the kind of friend who will always believe in you, and I'm proud to call her
"my friend".

THREE PICTURES TO REPRESENT ME

MAEVA

MY EXPERIENCE IN THE EUROPEAN SECTION

I have been in the European section since Middle school, because for me, learning English is much more interesting by going to the theatre, watching movies, studying American and British history than by learning grammar. Being in this specific class permits me to meet very nice people, and to study this language with fun. Going twice on a trip to England, each time for a week was a good experience. My favourite year was the last one, even if we stayed in France, because I had fun with my neighbours, who will recognize themselves haha! I also really appreciated the English and History classes, because of the jokes of our two teachers Mrs Rochias and Mr Pichard. Staying at school until 6:00 pm was strangely pleasant, and even after the oral exams, we asked to keep going to history class! Thank you all for these amazing years!

WHERE DID I GO?

Am I a traveller? YES!

In the United States: New York City

In Africa: Djerba island, Tunis, Sidi Bou Said, Hammamet

In Spain: Catalonia (Barcelona), Andalusia (Cordoba, Malaga)

In the United Kingdom: London, Bath, Brighton, Cambridge, Wells, Bristol, Lacock, Shawton, Cheltenham, Gloucester, Canterbury...

In Wales: Cardiff

In Italy: Sardinia

And a little bit everywhere in France!

WHERE I WOULD LIKE TO GO

If I could go to an English speaking country, I would go to the United States. It is not a very original answer, but I think there are so many things to see there, so many landscapes, so many traces of history, so many people with different cultures and origins... I really would like to go on a trip to discover everything. I would like to see Mount Rushmore in South Dakota, walk on Hollywood boulevard, swim in Hawaii, drive on Route 66, and especially go on a journey with sled dogs in Alaska.

PRESENTATION OF A CLASSMATE

I would like to present a very nice person: Clarisse! I really met her during the second trip in England, where we spent all our time together! On the surface, people think she is a quiet and shy girl. What fools they are! She is dangerous. In reality, she is a very funny person, with absolutely perfect tastes in cinema (the same as mine, huh!). I am glad I met this little crazy girl, and I hope that next year people will see how cool and "badass" she is!

THREE PICTURES TO REPRESENT ME

INES

MY EXPERIENCE IN THE EUROPEAN SECTION

Since 2013, I have been in the European section and I have studied different aspects of the English world through History with Mrs Le Roux and Mr Pichard. In English, we had three teachers: Mrs Irdor, Piette and Rochias, with whom we saw the English culture. We have improved our English accent. During these three years, we went on two trips to England where we visited Bath, Cambridge, and of course London. It was super because we were in the English world and with English people!

WHERE I WOULD LIKE TO GO

If I had to choose an English-speaking country, I would choose Australia because it's one of the biggest countries in the world and, and on the other side of the planet! There are extraordinary landscapes with rare animals like kangaroos, beautiful monuments like Sydney's Opera or Harbour Bridge.

A QUOTATION THAT SYMBOLIZES ME

"All things come to him who waits" Clement Marot

It means that time makes everything happen when we know to be patient. Indeed, patience is the ability of someone to keep control, to remain calm in a tense situation or when facing difficulties, and it is also the quality of perseverance. Patience is an essential quality required for those who aspire to wisdom. Like meditation, patience must be acquired and exercised; it requires self-control and an effort that is generally the opposite to the natural stirring of inner impatience.

So, I like this proverb because it can be a good piece of advice in many situations.

PRESENTATION OF A CLASSMATE

There is a student named Asmâa. This girl has been my best friend since middle school. She has always been a very smart student, but her attitude in class can be inappropriate, and the teachers could be angry at her. However, this girl is adorable and very funny when you know her well.

MY PLANS FOR THE FUTURE

Later, I would like to be a pediatrician because for a long time I have dreamt to practice a job in connection with health and children. I think that doctor is the most beautiful job in the world. What is better than saving lives?

THREE PICTURES TO REPRESENT ME

AURELIE

MY EXPERIENCE IN THE EUROPEAN SECTION

The European section was an amazing experience for me. It was really enriching. I learnt a lot about English language and always in a great atmosphere. I have loved my colleagues, and some of them have become real friends to me. These 3 past years have been very cool by their side. I liked the brotherhood and the solidarity we had all together. We had a lot of fun, and an amazing trip to London. Even though I'll keep amazing memories, I'll miss this class and I'm proud to have been part of it: if I had to do it again, sure I would.

PRESENTATION OF A CLASSMATE

Yolen is a wonderful girl, she's the most loyal friend I've ever had. She's hardworking and focuses on what she wants. She's funny and makes me laugh every day, she's always in a good mood and that's really contagious. Together, we make the perfect match, and I have liked spending my high school years by her side. She'll succeed in life because she's determined to reach what she targets, and she has a lot of qualities: she's patient, lovable, friendly, sociable, rigorous...

WHERE I WOULD LIKE TO GO

The country I would like to go to is the United States. I would see by myself if all the stereotypes about America and American people are true or not. It seems to be a fun country, and American people look welcoming. This country has a culture very different from ours. I would be curious to discover it, and build my own opinion about America. I might be disappointed, but as soon as I can travel the world, that will probably be the first country I would go to. Then, I think that there's a lot of different "Americas" because every state is different and it seems very interesting, because every state has its own culture and its own particularities and specialties. Finally, I have a lot of other places I would go to: Australia, South Africa, Canada... I would like to travel to multiple countries to discover new things and see how rich of diversities our world is.

MY PLANS FOR THE FUTURE

In the future I would like to study economics at the university in order to work in the international trade because I like economics, finances, trade and business. My goal would be to work in a great company and have a good job which could bring me comfortable incomes. I also like traveling and I'd like to travel for my job, to work with other countries or foreign companies. My plans are to study 5 years after my baccalaureate, and I would be proud if I made it.

A QUOTATION THAT SYMBOLIZES ME

"Life is 10% what happens to you and 90% how you react to it."

I think this quotation is inspirational because it gives you hope, because you're the one who builds your life, whatever happens to you, you can always turn bad things into positive things.

THREE PICTURES TO REPRESENT ME

MILA

MY EXPERIENCE IN THE EUROPEAN SECTION

I have been in the European section for 5 years. I entered it in 8th grade. As far as I can remember, I have always loved English, so this section has been a great opportunity for me to practice this language.

These years have been really nice and I do not regret my choice. Thanks to it, I have met some amazing people who are always making me laugh. I have had the opportunity to improve my English and travel several times to England.

I know what I have learnt during these years will be very useful, and it already is. For me, being part of the European section has been a great experience!

PRESENTATION OF A CLASSMATE

I met Aurelie in 10th grade, we have become very good friends since then. During these three years being in the same class we have laughed and chatted a lot. She is extremely thoughtful, has a confirmed character even though she can be very calm. I have made very nice memories with her and I know I will always be able to count on her no matter what.

A QUOTATION THAT SYMBOLIZES ME

“Just keep swimming.”

I love this quote because it reminds you that no matter what happens, you have to continue living your life a 100% and not let yourself down. If you keep making efforts it will pay even if it seemed lost by advance.

honest kind beautiful
sweetheart serious funny
Oranje nice organised heart
bilingual Netherlands cute
studious

WHERE I WOULD LIKE TO GO

I would like to visit Australia. In fact I have heard only amazing things about this place and especially from my little brother who went there for a month and loved it.

I love countries with a nice warm weather and beautiful landscapes that are various depending on where you are located. Being able to see free kangaroos on the side of the road and see Sydney's mythic Opera and Harbour Bridge is something I am dreaming of.

I heard that the people there are extremely kind and obviously have a different culture from ours. So it is the country I would love to discover and add to my list.

WHERE DID I GO?

I love travelling. I think it is something extremely rewarding because you are able to discover lots of things different from what you are used to, which makes you grow a lot. You make amazing memories that always remain helpful and comforting. I got to travel quite a lot. Obviously to the Netherlands which I am obsessed with, to Germany, Sweden, Belgium, Luxemburg, Spain, Portugal, Italy, Greece, Great Britain, as for Europe. I have also been to Canada, The United States, Tunisia and South Africa which I think was my favorite trip because the weather was so nice and because the landscapes and people were incredible. My goal would be to add many more countries to my list.

THREE PICTURES TO REPRESENT ME

Lorène

MY EXPERIENCE IN THE EUROPEAN SECTION

I started the European section in high school because English had always been one of my favorite subjects. I really wanted to spend more time studying this language! During the first year, I got the chance to study both sciences and history as I was in another high school. Getting into this section is one of the best choices I have ever made for my studies because we got to learn a lot of interesting things, to go to London and Cambridge but I also met students who are as into English as I am. I will keep a good memory of these years and the teachers who guided us through them.

PRESENTATION OF A CLASSMATE

I chose to present my friend Ghizlaine who is a very smiley person. She has her own style which is very cool and always catches people's attention but that's just a physical detail. She has a beautiful voice and uses it a lot to sing mostly One Direction or Justin Bieber songs! Plus, she can draw very well and she always makes drawings to give to her friends and please them. She's one of the most generous persons I know and she's also very smart, you can talk to her about anything!

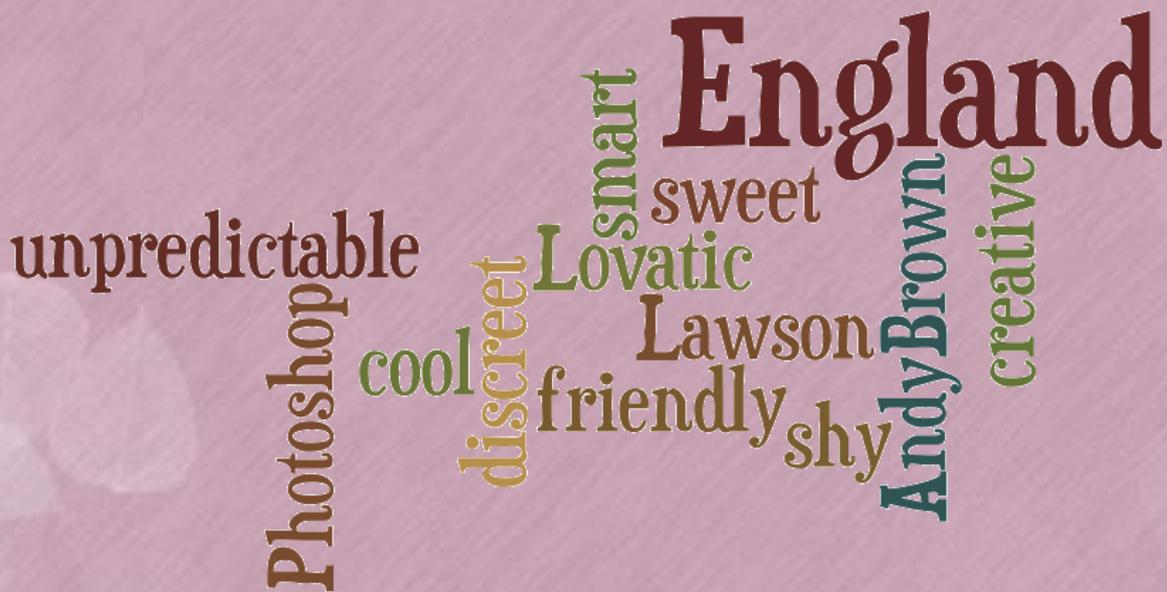

THREE PICTURES TO REPRESENT ME

MY PLANS FOR THE FUTURE

I have no idea of what I'd like to do in the future. I hope that I'll be able to travel a lot, to discover the world but unfortunately plane tickets are very expensive so I'd better have a job. I will study English but I don't know if I want a job related to it. I thought of being an English teacher but I don't know if I'd be patient enough... All I can say is that I want to be able to help people through my job and why not one that would make me travel.

A QUOTATION THAT SYMBOLIZES ME

“Everyday is a second chance”

I first heard it a few years ago in the song *Living Louder* written by The Cab. It is something that really helps me through my life as I get anxious very easily. I keep this quote in mind and whenever I feel bad about who I am or what I do, I just tell myself that the next day will be different and it's all up to me to take that chance and make it better.

BRIAC

MY EXPERIENCE IN THE EUROPEAN SECTION

I started the European section in my 3rd year of middle school. I was not a big fan of English but thanks to the European section, I managed to improve my level. Even if it was only 2 hours per week more, it really helped me. When I arrived at high school, I dreaded the History classes in English. I thought that I wasn't able to understand the vocabulary of History, but in fact, it wasn't really hard and it was really interesting. I don't like oral expression, but the advantage to be in this section, is that it pushes you to speak. So year after year I became more self-confident. During these 5 years I went 6 times to England in host families (twice thanks to the European section). The European section was a really important and rewarding experience, and I met very friendly, good and important people. I congratulate myself for achieving the European section.

PRESENTATION OF A CLASSMATE

I met Dylan when we were in the 2nd year of middle school. He was, and he is, 2 years younger than us, but he is really mature and friendly so this difference is never noticed. We have always been friends, so most of the time we made group works together, and during the second trip to England we were in the same family, with Steven and Parwez. I laughed a lot with him. Dylan is a very kind, friendly and funny person, and a good friend.

A QUOTATION THAT SYMBOLIZES ME

WHERE I WOULD LIKE TO GO

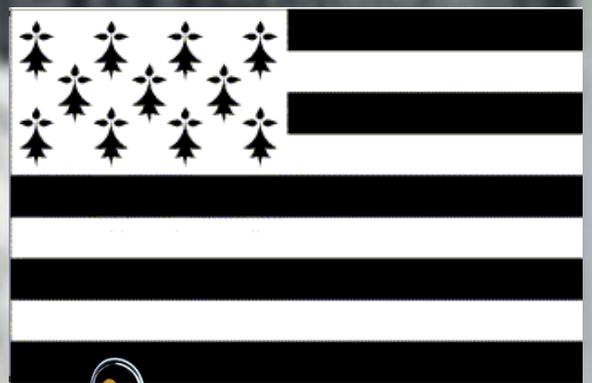

I would like to go to Tokyo. It's a city that I have always wanted to visit because of the atmosphere that prevails there. I like taking pictures in Paris, getting up very early or very late out, at night, being alone in Paris. If I go to Tokyo, I will certainly do the same, mainly by night because I find Tokyo by night very attractive. I would like to visit Tokyo also because of the new culture, really different and interesting.

MY PLANS FOR THE FUTURE

I would like to become a sport physiotherapist, if it's possible in a professional sports club. But first I have to study, and if all goes well, it will take 5 years. When I get a job, I will try to take an apartment with my girlfriend. When we are settled, we will try to earn enough money to travel to places where we have always wanted to go to, such as Tokyo, islands, Australia and others.

THREE PICTURES TO REPRESENT ME

CLARISSE

MY EXPERIENCE IN THE EUROPEAN SECTION

My school years in the European Section were a good experience. We had History in English and it was very interesting. We saw things from another point of view. We made school trips which were very interesting. We were in English families so it helped to learn.

With our teachers we went to the theatre. We saw plays in English. We saw *Sherlock Holmes* and *Frankenstein*. It was cool and captivating. I know that if I had not been in this class I wouldn't have been there.

The European Section brought me a lot of vocabulary. And I liked to learn English with films and songs. To improve our oral expression, we made videos. I remember when in Year 11 I made a video with Dinally. It was difficult and I think we were a bit ridiculous! And this year we had to make a pirate radio. I really liked doing this.

I'm sure that my experience in this section will be useful in the future.

WHERE DID I GO?

WHERE I WOULD LIKE TO GO

It's hard to say where I would like to go. I want to do a trip all over the world. The first place I would like to go to is England. First I will go to London especially to visit Camden Town because it's a neighborhood with very different things and good vibes. The flea market is extraordinary. There, you can find a full variety of products (music, clothes, instruments...). It's the place of the pop-rock and punk culture. There is a square in the center of the market with a lot of little food-trucks and stands of cookery from all over the world. And I will visit all the other districts of London like East End, Notting Hill... Harry Potter Park! After I want to go to Scotland. I will visit the old castles and I find the landscapes beautiful. And I would like to go back to Cambridge. The last time I went there I liked to walk through the city and the river cruise. England is a country with very different faces and I would like to try to see all its faces.

hair. shy perfection
silence rastafari marvellous
calm quiet

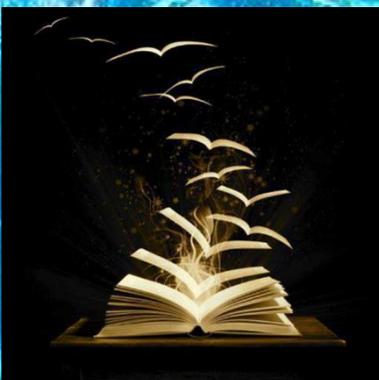

PRESENTATION OF A CLASSMATE

I want to talk about Maéva. We really became friends during the trip to London. I quickly appreciated her. She is so nice. It's really easy to talk to her. She is funny and makes me laugh. Sometimes she can be a bit "crazy". But I know how to deal with it even if she continues to surprise me.

A QUOTATION THAT SYMBOLIZES ME

"But only in their dream can men be truly free. Twas always thus, and always thus will be." John Keating - Dead Poets Society

THREE PICTURES TO REPRESENT ME

PARWEZ

MY EXPERIENCE IN THE EUROPEAN SECTION

It's been five years since I entered the European class: two years in middle school and three years in high school. During these years, I could improve my English and my culture. We performed dialogues which were pretty funny and interesting. We had a lot of fun doing it with my classmates. I really liked these dialogues!

We also did school trips in 10th and 11th grades. That was really funny, especially in 11th grade because we had a lot of fun with my friends in the host family, and we did more interesting things this year. These trips allowed me to meet new people and have some new friends.

MY PLANS FOR THE FUTURE

After my A level, I want to do a prep class in order to enroll in the French air force, to become a fighter pilot, or to become a civilian pilot. If I become a fighter pilot, I want to spend ten years as a military and then go back to the civilian world. I want to become a fighter pilot because I like strong sensations, high speed, and the danger (a bit). And it is also easier to become a fighter pilot than a civilian pilot. With 10 years of active service in the French air force, I can more easily apply to the civilian job than do it without the military service. I have wanted to become a pilot since my childhood for the adrenalin, the travels, the uniform and also a little bit for the money because it is well paid.

PRESENTATION OF A CLASSMATE

Dylan is the cute little guy of the class. He is funny but sometimes he makes jokes that are not funny. He is unpredictable and really energetic.

WHERE I WOULD LIKE TO GO

I would like to go to all over the United States, for example Los Angeles, Las Vegas, New York... I like pretty much travelling a lot so I am interested in visiting every single country I can.

A QUOTATION THAT SYMBOLIZES ME

"The only easy day was yesterday."

It's the motto of the United States Navy SEAL. I like this quotation because I like its meaning: problems never end.

MY EXPERIENCE IN THE EUROPEAN SECTION

I have been in the European section for 5 years. I remember all my teachers and they were all amazing! I choose to enter this section to have a better way to learn English, and learn more about English cultures, traditions, and ways of life. During these 5 years, I learnt a lot about the other students, me, other countries like the USA, South Africa, the UK...

It made me want to travel all around the world and particularly to that kind of countries. It's a beautiful experience I have shared with my friends.

I have met a lot of people and they have become really important for me.

PRESENTATION OF A CLASSMATE

Sophia has become a really close friend. She's smart, pretty, fashionable. She is the 100. And I have a very important friendship with her.

A QUOTATION THAT SYMBOLIZES ME

"Our greatest glory is not in never falling, but in rising every time we fall" Confucius

MY PLANS FOR THE FUTURE

I would like to go to the American university of Beirut in Lebanon to study economics. I want to go there to learn English, and I also have family there, so I want to stay with them. My father is Lebanese and I go to Lebanon every year. I love this beautiful country, where there are many different ethnic groups and cultures. For my job, I would like to work as a trader. Lebanon has an important economy and many people there work in business.

WHERE I WOULD LIKE TO GO

I want to travel and explore Mexico because it is a beautiful country, with a lot of cultures. And the food seems delicious! I also want to travel to Brazil because of football. It is the country of football stars like Ronaldinho and Neymar. And I also wish I could see the Rio Carnival!

MY EXPERIENCE IN THE EUROPEAN SECTION

At middle school I didn't know what the European section was. It is a former student who told me about that section and my English teacher told me that being in this section could be a good thing for me and it was! It was, because I really appreciate English, especially speaking English.

Thanks to the European section I improved my English and I expanded my knowledge in History and geography of English-speaking countries, more particularly. The little theatre scenes and oral presentations that we have made have allowed me to appreciate and learn at the same time.

We had fun with my classmates with a good atmosphere. That section made me want to continue my studies in a field where I can speak English and learn more about the English-speaking world.

PRESENTATION OF A CLASSMATE

Since I entered the European section, Mila has always been an invested and serious student, always here to help when you have a problem. She's cute, intelligent, smiling, funny but she's always worrying for no reasons. For me, Mila is related to Holland, you cannot know Mila without knowing Holland because she's talking about it all the time, A LOT. Mila and I will remain friends for a long long time (I hope) and of course she will bring me to Holland very soon...

WHERE I WOULD LIKE TO GO

I would like to go to Australia because it is a country where there is a lot of sun and I need sun in my life. Of course also because it would be an opportunity for me to speak English and it is an English-speaking country that I don't really know.

MY EXPERIENCE IN THE EUROPEAN SECTION

My experience in the European section has been really rich. First I started this section at middle school. I had to pass an oral exam. When I discovered that I was accepted in this section I was really happy. My first teacher was Mrs. Boudjenoui, we used to watch movies particularly Hitchcock movies; it was really interesting. My second teacher was Mrs. Gastard. I learned a lot with her and she was a very good teacher. When I went to Maupassant high school, I started History in English and it was a very good experience and my personal culture was richer. I started with Mrs. Leroux, she was also my History (in French) teacher. At this time, my English teacher was Mrs Irdor. Last year, my English teacher was Mrs Piette, she was kind and "rigorous". This year, my English teacher was Mrs Rochias and my history teacher was Mr Pichard, one of the teachers I will remember because of his personality! With the European section, I made one trip to London and I went twice to the theatre (in English of course). Thanks to this section I discovered a lot of personalities and some of them became my friends.

WHERE I WOULD LIKE TO GO

I want to go to Malaysia because it is a beautiful country. People seem very nice. It is a country where culture is very developed, where nature is highlighted. I would like to go there and live for four weeks in a house on the hills. I would also like to go to Africa and to discover many countries. I think that these countries are the most beautiful ones because they are far from the noise and close to nature.

MY PLANS FOR THE FUTURE

Later, I would like to become a doctor because I think that it is one of the best jobs. Everyone needs a doctor in their life. I also want to help people. Since I was a kid, I have wanted to be a doctor and I hope I will succeed. I just want to try.

PRESENTATION OF A CLASSMATE

Bouchra is a complete person. She is pretty, smart, candid and characterial. She is the 100. She is Lebanese and Tunisian. She is always laughing and we have the same deliriums. She is one of the persons that brought out the best on me. She has become a very close friend and I hope that we will be friends for a long time.

MY EXPERIENCE IN THE EUROPEAN SECTION

I have been in the European section for five years, so I have a good experience. I have learned a lot of things about English-speaking countries like the USA, South Africa or the United Kingdom. This knowledge made me want to go to these countries. During these years, I went to England, particularly in the south, and it was amazing! That kind of trip brought me a lot for my future. Thanks to the European section, I met really nice people, and I made really close friends.

MY PLANS FOR THE FUTURE

First of all, I want to enter a medicine college to be later a really famous oncologist because it has been my dream since I was 5. Next, I want to do a world tour particularly in Asia, America, Sub-Saharan Africa, etc. Of course I want to create an organization which will help children in poor areas to have access to schools, hospitals, and different infrastructures to improve their well-being. I know it's a little bit utopian but I want to do something important in that society. Yes for sure, I hope I will be a mother, I will have my house, my car and my dog!

WHERE I WOULD LIKE TO GO

In the future, I would love to go to South Africa or the USA because they are two amazing countries. I have to go there to learn about other cultures, traditions, food. I need to be open-minded. I have been to seven different countries, but it's not enough.

WHERE DID I GO?

Of course I'm a traveller because in my family we love to do some journeys to other countries in Europe or Africa. We, Cape Verdeans are spread all around the world and I have a lot of family in other countries. Travelling is one of my favorite passions and I have that passion in my blood, in my mind. Can you believe one second I've travelled more than my parents and my brother reunited? I have visited Spain, The Netherlands, Portugal, Cape Verde, Italy, United Kingdom, Switzerland, Morocco, Belgium... But I want to travel more and more. For example I want to go to Egypt, Tunisia, Germany, South Africa and of course all around Asia and America, both of them. I have travelled not only for postcards or monuments, I have travelled to be more open-minded, to meet other people and to learn about different cultures and of course for the food!

PRESENTATION OF A CLASSMATE

Sami has a lot of defaults but he is a really nice boy. He is funny, smart, serious (sometimes!). Our first meeting was really bad, we didn't like each other. But as we stayed in the same class, we got to know each other. Of course, he is a chatterbox like me, but he is also nice like me! He can be a little annoying, but I know we are good students anyway.
